THE HUMAN SOUL FOUND.

Scientific Disclosures and Proofs Which Threaten to Startle and Astonish the Whole World When They Are Published.

LEICESTER, N.E., Aug. 27.—A most remarkable discovery has recently been made in this city. It is of such an astounding nature that the correspondent hesitates to give the circumstances to the public on account of being barred at present from giving names, although there is no good reason why it should not be done. However, the gentleman who has made the discovery requests it. This disclosure consists in proving beyond the possibility of a doubt by scientific means the existence of the human soul, laying bare the greatest secret of nature and proving the doctrine of eternal faith "that the soul of man doth live," the disclosures and proofs of which will shortly startle and astonish the entire world.

For the sake of convenience the gentleman alluded to will be called Mr. Holland, a man of small stature, a mild eye and thoughtful countenance, a devout Christian, possessing a peculiar belief that the soul of a man is a counterpart of the body itself; and in this theory of the dual man he sought the key of life and death. He reasoned within this body of his and saw that another body existing in vapor form which death alone should free, and that by a simple microscopic device the dull sight of human eyes might penetrate the minute particles of the air we breathe, and see the soul take form and flight to the boundaries of another world.

His attention was first attracted to this, he says, by a man lying upon a sofa suffering with a pain in his foot, and yet there was no foot there to suffer, the leg having been amputated nearly to the hip. "For years," says Mr. Holland, "this incident ran through my mind, until at last I resolved upon an experiment. I procured the most powerful lenses I could find and completed an invention of my own, and when I had my light arranged perfectly so I could examine the microbes of the air, I called upon a friend who had lost his arm and explained that I wanted him to put his imaginary hand where I directed. He laughingly accompanied me to my rooms and did as I desired. The moment I adjusted the glass a world of revelation broke upon me. The dual hand lay beneath my eye. I asked him to make lotteries with his imaginary finger. He did so and to his wonder and astonishment I spelled out the sentences he wrote. That was conclusive evidence to me," continued Mr. Holland, "and you know the rest."

The second experiment was one of the greatest difficulty—that of watching the soul itself take flight. The friends of dying men would not allow experiments, and, indeed, it would have been a delicate matter to ask it. Hospitals afforded opportunities, but physicians and attendants had no faith in the experiments of the quiet gentleman, whom they no doubt alluded to as "crank," so for nearly a year he was waiting and watching for a man ready to die. The opportunity came at last: a consumptive wanderer from the East sought relief in the Western air. He fell penniless, and was about to be taken by the authorities to the county poor-house when Mr. Holland interposed and had him removed to his own home, to nurse and watch him die. Through many long hours of the night, Mr. Holland sat by the bedside of his charge, fanning the spark of life lest it should go out in the night, when all efforts at the experiment would be lost, and leaving orders by day with his wife to call him the moment the patient seemed to be sinking.

The fatal moment came about 10 o'clock yesterday morning. Stretched upon a low bed, with the death-rattle sounding in his throat, lay a young man of perhaps twenty-three years of age. Mr. Holland quietly motioned the correspondent to a seat and continued watching the features of the dying man with silent interest. Presently he arose and adjusted the curtains of the windows so that a flood of light fell aslant the dying man. He wheeled from a corner of the room, where he had been like a photographic camera, arranged the lenses to a focus, and then produced a large lens of some twelve inches in diameter and placed it in grooves made to fit behind the apparatus. The back part was then covered with a black cloth so as to obscure the light, and from time to time as the breathing of the man grew heavier Mr. Holland made inspections of the instrument.

At precisely 11:30 o'clock a sudden tremor passed through the body and he had ceased to breathe. Mr. Holland arose from the bedside and said in a whisper: "Now is the time!" Together Mr. Holland and the correspondent passed their hands under the black cloth and bent their eyes intently upon the glass. Particles of dust in the air were magnified several thousand times and for a time their motion kept a perfect dazzle upon the glass.

Then as the vapor gathers into clouds, so an object appeared to be forming a foot above the body upon the bed. Particles seemed to seek particles, as by some molecular attraction, until an object was clearly distinguishable. It seemed the vapory form of a man rapidly assuming a more perfect shape, pure and colorless as the most delicate crystal. There was a moment of awful stillness, and a feeling came over me which I can never describe. We bent our eyes intently upon the glass until, particle by particle, the shape of a man had formed and lay floating a foot above, and moored to the body by a slender cord of its own formation. The face took the shape of the dead man, but was beautiful in expression; the eyes were closed, and the new-formed being seemed as if it were asleep.

Presently the cord that held it to the clay parted and gentle tremor passed through the beautiful form—beautiful, indeed, for every limb was of the most perfect mold, such as earth has never beheld. The eyes of the spirit opened and a ray of intelligence and of unspeakable joy passed over its face. It arose to a standing position and cast one sorrowful look at the tenantless clay that lay so still. It stepped from behind the darkened

apparatus and looked toward the spot where I knew the form was standing, but I beheld nothing. The earth reeled beneath me, I cried aloud and fell fainting to the floor. When I again became conscious Mr. Holland was bending over me; his face was of an ashen paleness. "I mistook your strength," he said; "perhaps I should not have called you here. We have seen natural causes and effects. Death is but the beginning of life. Be careful, though, to whom you tell the story of this day; the world is incredulous and to that is mainly due its ignorance."—Louisville Commercial.

Acted Like a Charm.
My little daughter all her life has been in delicate health. Her blood seemed to be impoverished. She has taken various preparations of iron, cod-liver oil, and tonics of many kinds, which were prescribed by the best physicians, and while she was benefited, yet it was only temporary. A member of my congregation, who had tried it, recommended S. S. S. For about a year she has had an indolent but stubborn sore behind her ears. After she had taken Swift's Specific for a short time the sores grew worse and began to discharge. This I regarded as favorable. In a very short time her ears grew better, and to-day are entirely well. Her appetite is splendid and regular, she is full of life and cheerfulness. The change is evident to the most casual observer. I ascribe it all, under the blessings of God, to Swift's Specific. In view of what it has done for me and mine, I can most confidently and sincerely recommend it to all who need such a remedy. Let the suffering give it a fair trial, and it will bring hope, health and happiness into every home.

LAFAYETTE ITEMS.
MR. EDITOR:—As it has been some time since we saw a letter in your paper from Lafayette, I have concluded to give you a few items. The first item which demands consideration, though it may appear trite, is the drought. We have had no rain of consequence since the 10th of July, and of course crops are looking badly. Tobacco is beginning to burn and some of the farmers are cutting. We had a shower of rain last night enough to lay the dust, for a short time, which had become very disagreeable, especially to the church-going people, who have been attending the protracted meeting at the Cumberland Presbyterian church at Bennetts town. The services have been in progress about a week, conducted by Revs. Perry and Biddle. Rev. J. D. Fraser, who has been spending a few days at Dawson, returned home yesterday, via Clarksville, Tenn. He thinks that he has been benefited by the water.

We expect Lafayette will be more attractive to a certain Presbyterian Divine, since the return of Miss Emma Cooper, one of Lafayette's most attractive young ladies, who has been spending several weeks with friends in Alabama.

Prof. S. L. Froge having purchased the Lafayette High School property, will open a first-class boarding school for young ladies and gentlemen on the 7th of Sept. Those having children to educate could not do better than to patronize Prof. Froge.

We think two of our county officials acted rather badly on Sunday before election. They were down here electioneering, and, well, I don't believe they were exactly gambling themselves, but they understand one of them loaned a negro some money or rather a check and the other held the stakes; this, we think is very nice business for two officers of the law to be engaged in on the Sabbath.

Several of Lafayette's beaux and belles have gone to Clarksville to attend the stock show which begins there to-day.

If there is any law for the prevention of cruelty to animals to be enforced in regard to the mail carrier who brings the mail from Hopkinsville to Lafayette. We have seen him come in town several times, driving a horse that looked like he could hardly go at all, and there were wheels nearly all over him which the driver had made trying to get him along. We suppose, though, it is more the fault of the contractor than of the carrier. If the carrier had good horses he would not have to whip so much.

We don't mean to get up a fight with any one, but it is simply an imposition upon the county and a disgrace to her, to suffer such things. On Sunday, July 5th, we were coming from Hopkinsville about 4 o'clock p. m., and met the mail carrier about two miles from town. The horse looked like he had completely given out and had stopped. The driver was lying down in the buggy asleep and apparently pretty much how-come-you-so. He ought to have gotten to Hopkinsville the evening before, but, well, he didn't all the same.

Bill Nye on His Birthplace.
[Boston Globe.]
A man ought not to criticize his birthplace, I presume, yet, if I were to do it all over again, I do not know whether I would select that particular spot or not. Sometimes I think I would not. And yet, what memories cluster about that old house! There was the place where I first met my parents. It was at that time that an acquaintance sprung up which has ripened in later years into mutual respect and esteem. It was there that what might be termed a casual meeting took place, that has, under the alchemy of restless years, turned to golden links, forming a pleasant but powerful bond of union between my parents and myself. For that reason I hope that I may be spared to my parents for many years to come.

There on that spot, with no inheritance but a predisposition to premature baldness and a bitter hatred to rum; with no personal property but a misfit suspender and a stone bruise, began a life history which has never ceased to be a warning to people who sell groceries on credit.

FROM FAIRVIEW.

AUGUST 26th, 1885.

EDITOR SOUTH KENTUCKIAN:—The dry weather is the topic of conversation with the people of Fairview.

There will not be as much corn and tobacco made in this neighborhood as was expected. It is rumored that there will be two weddings in this vicinity before a great while; such is life.

The pink-eye is raging to some extent among the horses of this neighborhood. Miss Oma Quisenberry, one of Fairview's charming young ladies, is visiting relatives in Hopkinsville. Master Johnie Everett, of this vicinity is the guest of Master Herbert Hart of your city.

Mr. Joseph Griffin, from near Clarksville, Tenn., while visiting relatives in these parts a few days ago was taken suddenly ill with something like galloping consumption and died within a few hours.

Miss Wilkins, a fascinating belle of Howell, is the guest of Miss Bennie Lay of this place. Prof. Thomas Kerman will take charge of the school at this place on the 7th of September. He comes well recommended to the patrons as fully competent to discharge all duties devolving upon him as a teacher.

The Baptist are going to build a seven thousand dollar church at Fairview. The church will be built on the place near Mr. Jas. Murphy, in the lot where Mr. Murphy was born and Alma of the Todd County Progress says Mr. Davis will be here to lay the corner stone.

A fight occurred in Fairview a few nights ago in which one of the boys got considerably bruised up. Col. Tom Dodd found some bones of a human, while he was cleaning out the cellar under W. B. Brewer's grocery one dark week. It was supposed that they were left there by a doctor who used to occupy that house.

Will some one tell me whether Bill Rogus was captured on land or water, or did he stray off from his native country to this, and take up with the echoes and wild animals here? Died, on the 20th, inst., at his residence near here Mr. Jas. Murphy, in the 61st year of his age. Mr. Murphy was a long sufferer from the effects of cancer and was very low when he was attacked with flux which resulted as above stated. He was a man of sterling worth, industrious habits and strict integrity, was respected and esteemed by all who knew him. He was married twice and was the father of 21 children, 12 of which survive him. He also leaves a wife and many relatives and friends to mourn his sad death.

THEODORE.

Mr. John H. Van Culin Dead.
Although Mr. J. H. Van Culin has been known to be in rather wretched health for a good while, the announcement of his death will be quite a surprise as well as a shock to the community. As it has been many times before with sick men who are known to be steadily failing, yet always up and going, the friends of Mr. Van Culin had learned to put the time further off at which he must go, and few if any were prepared to accept the inevitable, which came upon them in the sad news of his death, which took place at his residence in Walnut street near Clark, in this city, at 10:30 A. M., to-day.

The deceased was born at Salem, New Jersey, on the 31st day of January, 1821, his age being nearly 65 years. He was married in 1838 to Miss Robena E. White, who survives him, with three grown sons, one who has been for a considerable time at Memphis, another at Jackson, Tenn., and the other remaining in business with his father at this place.

Early in life Mr. Van Culin went from his native town to Pittsburg, Pa., where he engaged in business in a clerical capacity and after spending several years there he finally settled at Hopkinsville, this State, where he resided many years, being connected with the branch bank of Kentucky at Hopkinsville. He was a native of New Orleans and engaged in the commission business, as a member of the firm of Moore & Van Culin, and from that place he came to Paducah in 1869, engaging in business here, being for the past seven or eight years in the book-store business. He was a pleasant, affable, high-toned gentleman, and more than ordinarily sociable in his habits for one in bad health, and of whom probably, of the coming dissolution nor a murmur being ever heard by his most intimate friends as to the inevitable lot that was before him.

Besides his immediate family and friends here the deceased leaves a brother, S. W. Van Culin, in Philadelphia, Pa., and two sisters, Mrs. John Glass and Mrs. Sarah Coleman, at Hopkinsville, in this state. He was a brother-in-law of N. S. White, of Jackson, Tenn., and J. H. White, of near Baton Rouge, La., and of Mrs. W. C. McClure, of Memphis, Tenn.

The remains will be buried at Oak Grove cemetery, of this city, the funeral occurring from the family residence to-morrow afternoon at 5 o'clock and under the auspices of the Masonic Fraternity, of which deceased was a member in good standing.

The news joins with the bereaved family and this community in mourning the loss of a good and upright citizen.—Paducah News.

"Gone Down Red Lane."
This is what the youngsters say when they wish to express the idea that catables have been disposed of. Happy is he whose stomach can digest all that goes down "red lane." Unhappy is the victim of indigestion who cannot comfortably dispose of his food. Aches, pains, grief and mental suffering are his portion. The cure for all this is Brown's Iron Bitters, the greatest iron medicine in the world. Mrs. Teidman, of St. Louis, says, "I used Brown's Iron Bitters for weak stomach and general debility and am cured."

A Pleasant Dance.

Mr. Editor:—The vicinity of Newstead has been unusually gay this summer. Nearly a dozen parties have been given in the last month, all well attended by the gallantry and beauty not only of the vicinity but also of the surrounding neighborhoods. The last of these entertainments was given by Mr. and Mrs. W. F. Cox, and was a most delightful reunion. There were about one hundred persons present, a large majority of whom participated in the festive dance, enlivened by the music of Prof. Donaldson & Son, who have few equals and no superiors.

The host had erected adjoining his house one of the finest arbors for dancing we have ever seen, large enough to accommodate twenty couples at a time, with canvass awning lit up with Chinese lanterns. The awning was not intended to keep off rain or dew, as we have had neither for a long time, but to add light and beauty to the scene.

But Frank is a glorious fellow and had the saw-dust too deep. The first set was waded through, the gentlemen much worried. It was too deep for the pigeon wing, and so they couldn't cut her. This was easily remedied, and then

"On with the dance where beauty leads the way. Gallies may follow nor stop 'till break of day." At 11 o'clock supper was announced. Now there is a considerable difference of opinion as to what constitutes a joy forever, but, Mr. Editor, give me what was set before us and I will take that for mine. Ice cream as rich as Vanderbilt, as cold as the weather last winter.

Sherbet, the ladies said "now isn't it nice?" and they generally know. Cake, ah! well, who ever has set down to Mrs. C's. hospitable board only knows how splendid it was. Mr. Ben Moore was satisfied and that would convince the most skeptical that the cake was good and plentiful.

Done in Six Months.
That coil of hair on the back part of your head, dear lady. It is better than nothing and deceives nobody. In six months it will grow from to-day you may dispense with it if you are inclined to give Parker's Hair Balsam a fair trial. Cleanses the scalp, restores color, a delicious dressing. Not a dye, not oil, elegantly perfumed.

The sole defense of a Wyoming murderer was the worthlessness of the man murdered and although the judge ruled that that was no legal excuse for the act, the jury acquitted him.

Geronimo, the leader of the murderous Apache Indians, now on the warpath in the Sierra Madre, is reported to have been fatally wounded in a fight with United States troops last week.

Frank James, the reformed bandit, is now living on a farm a few miles from Independence, Mo., in bad health and very poor. He has refused many offers from showmen and says he will end his days on his farm in peace and quietude.

S. A. Hicks shot and killed a negro named Nels Moran, in Daviess county Saturday night. He was caught prowling around Hicks' distillery, which had been broken into several times lately. Hicks was acquitted.

The public debt was decreased \$2,879,052.17 during the month of August, and the Treasurer's report shows nearly five hundred millions of dollars in the Treasury on the 1st of September. How is this for a Democratic administration?

The Georgia Legislature has passed a law levying a special tax on old bachelors. Now let it impose a fine on every man who marries before he can support a family and it will have the looks of creation between the "devil and the deep sea."

One Tooke, a tramp lawyer, passed through Pulaski, Tenn., this week begging from the members of the bar. He claimed to be a graduate of Washington and Lee University and also professed to be a grandson of the celebrated Englishman, Horne Tooke, and a nephew of Gen. Simon Bolivar Buckner's first wife. He was trying to get to Colorado county, Texas, where he formerly lived.

The Covington Commonwealth has made the startling discovery that the assessors' reports of sixty-six counties in Kentucky show more legal voters than there are males over 21 years of age. In one county, Boyd, there is a difference of nearly 800, and in twelve counties there are nearly 3,000 more voters reported than there are males of the voting age.

J. H. P. Fulton, a member of the Evangelical church at York, Pa., notified the pastor, Rev. J. F. Shultz, that he must not attempt to preach a Grant Memorial sermon in the church. The minister undertook to do so notwithstanding the warning, whereupon Fulton sprang into the pulpit and knocked him down. A rush was made to defend the pastor during which Fulton escaped. This all occurred in the Republican banner state and not in the Democratic South.

Objection is made to the term "sovereignty convention," and "revolutionary" is proposed as more appropriate. Very well, so be it. The word is unobjectionable; and when, under its operation, Kentucky shall have a new Constitution, protecting all her citizens alike, guarding well all her interests, it will be a proud reflection to the revolutionists that they have fought and won a bloodless battle, which has placed their State in the very foremost of the line of progress, prosperity, and happiness. We are a Revolutionist, and proud of it. —Louisville Times.

BOWLING GREEN, Ky., Sept. 1.—Last week, the flouring mill of I. B. Wilford, started up after a long season of idleness. About 4 o'clock yesterday evening the town was startled by the sound of the explosion of its defective boiler. S. L. Dixon, the engineer, was blown a distance of twenty feet, and died this morning. J. J. Enson, a millwright who has been repairing the machinery of the mill, is dangerously wounded. L. J. Morris is seriously hurt, and Hampton Elliott, colored, the fireman, was instantly killed. The building was badly wrecked, and is still burning to-day. Lost \$4,000.

Central City, Ky., Aug. 30.—A day or two since Mr. John W. Norris, who lives about four miles east of this place discovered on his farm what he believes to be a rich gold mine. He commenced to sink a well, and after digging about six feet he struck particles of bright yellow substance in a strata of sand and sand rock. The metal has every appearance of gold, and is so malleable as to bend easily when taken between the fingers. It exists in considerable quantities, and should it prove to be gold, the find is a rich one. Several persons who claim to be judges have examined it and declare it to be gold.

CHOLERA NEWS.

In Spain France and Italy.

TOULON, Aug. 31.—Cholera appears to be decreasing. But nine deaths occurred from the disease during the fifteen hours ending at 3 o'clock this morning. There seems to be little, if any, decrease in the panic among the people, however. One thousand workmen have deserted their places at the arsenal and fled before the scourge. Both divisions of the evolutionary squadron have been removed from Toulon and stationed in the gulf of San Juan to await the subsidence of the epidemic.

ROME, Aug. 31.—Cholera has made its appearance in Porzone, near Aquila in the province of Alexandria. Eleven persons have been attacked and four have died. The contagion was conveyed by a family from Marselles.

MADRID, Aug. 31.—There were 3,833 new cases of cholera and 1,248 deaths from the disease reported throughout Spain yesterday.

The statistics of cholera in Spain for the past week show, roughly, that there was a daily average decrease of 900 new cases and 140 deaths. In Granada and Saragossa this decrease was most notable, while in Madrid and Barcelona there was no change. In Valencia, Toledo and Zamora there was an increase in the number of cases and deaths.

Since the outbreak of cholera in Spain, 223,546 persons have been attacked by the disease, and 82,619 have died.

GIBRALTAR, Aug. 31.—One death from cholera occurred here to-day, making the tenth fatal case within Gibraltar since the outbreak of the disease in Spain. Six new cases of cholera and two deaths occurred within the Spanish lines at this point yesterday.

TOULON, Sept. 1.—Eighty persons died here from cholera to-day. There is no apparent increase in the daily average of new cases. The temperature has fallen and the weather has become much more favorable.

LATER—There have been five more deaths since the last report was sent. At the St. Mandrier Hospital to-day nine patients were admitted, three died, two were discharged, and ninety-nine remain under treatment. At other hospitals three patients were admitted, one died, and thirty-five remain under treatment. The Government has sent four surgeons from Paris to assist in caring for the sufferers. The exodus to-day exceeds that of any previous day. Many shops are closed. One death is reported at Montagnac.

MADRID, Sept. 1.—There were 2,669 new cases of cholera and 1,120 deaths from the disease reported yesterday throughout Spain.

GIBRALTAR, Sept. 1.—Another case of cholera was reported here to-day. In the Spanish lines the disease is growing worse. In two days thirteen cases and three deaths have been reported.

ROME, Sept. 1.—Cholera has broken out in the province of Genoa. Three cases are reported at Voltri and two at Borgo Laro. The Gazette gives notice that precautionary measures will be enforced.

MARSEILLES, Sept. 1.—Twenty-five deaths from cholera were reported in this city to-day. At the Pharo hospital 6 patients were admitted, 2 died, 8 were discharged cured and 63 remain under treatment.

TOULON, Sept. 2.—The cholera is again spreading in this city. The markets are now deserted. Seventeen deaths from cholera occurred here last night. Twenty-one new cases of cholera and 13 deaths during the twenty-four hours ending at midnight to night are reported. There were nine deaths from cholera here to-day. At the St. Mandrier Hospital 104 persons are under treatment. The public uneasiness is unabated.

PARIS, Sept. 2.—During the forty-eight hours ended at midnight last night, 82 deaths from cholera occurred at Marseilles, 78 at Toulon and 8 at Salon.

MADRID, Sept. 2.—The number of new cases of cholera and deaths from the disease throughout Spain yesterday were 3,062 and 1,507 respectively.

GIBRALTAR, Sept. 2.—Another case of cholera was reported here to-day. The patient was a soldier.

Resolutions of Respect.

At a meeting of the Board of Councilmen of the City of Hopkinsville, held Sept. 2d 1885, the following resolution was presented and unanimously adopted:

WHEREAS, John C. Latham, Sr., departed this life August 30th, 1885, and said Latham having for a great many years been connected in an official capacity with the City Government in which he always discharged his duty with honor and credit to himself and for the welfare of the City, Therefore, be it

Resolved by the Board of Councilmen of the City of Hopkinsville that by the death of said Latham, the community is called upon to mourn the loss of a valuable and useful citizen and one who was always found faithful in both his private and public relations of life and this Board desires to offer this testimonial to the worth of said Latham as a citizen and to his honesty and faithfulness as a public officer.

A Temporary Organization Effected.

The meeting looking to the organization of a Young Men's Christian Association met in Judge Joe McCarroll's office Tuesday night and was called to order by Judge McCarroll. Rev. J. N. Prestridge moved to organize temporarily, which motion was discussed by several gentlemen and unanimously adopted.

On motion a committee of three was appointed on permanent organization, to report next Tuesday evening, viz: Rev. E. W. Bottomley, Capt. J. H. Fitts and Dr. Andrew Seargent.

A motion to appoint a committee of three to look up a suitable place for future meetings was then passed and Dr. B. F. Eager, Mr. R. H. DeTreville and Mr. G. B. Underwood appointed as said committee.

The secretary was instructed to write to the Louisville Y. M. C. A., and get a copy of their constitution and by-laws.

Capt. Fitts urged that each member feel the necessity of inviting all young men to attend the next meeting and co-operate in the movement.

A resolution was passed requesting the local press to publish the proceedings.

The following members were then enrolled.

J. N. Prestridge, E. W. Bottomley, R. H. DeTreville, G. B. Underwood, B. F. Eager, Bailey Tompkins, J. H. Fitts, A. G. Reichert, Thos. W. Rodman, G. D. Dalton, J. T. Barrow, S. H. Richardson, C. C. Slaughter, Joe McCarroll, H. P. Ware, J. W. Preston, Theo. F. Martin, Park A. Heaton, Howe H. Wallace, Bailey Waller.

The meeting then adjourned to meet in the Baptist church, at 7:30 o'clock next Tuesday evening.

Bank of Hopkinsville.

The death of Mr. Jno. C. Latham leaves a vacancy in the presidency and directory of the Bank of Hopkinsville. The remaining directors are Messrs. E. P. Campbell, D. H. Beard, Geo. O. Thompson and T. H. Grinter, the latter of Cadiz. The directors have not been able to hold a meeting yet as Capt. Beard is sick and Mr. Grinter is absent. As soon as a meeting can be held the directory will fill the vacancy by electing a new director and then one of the five directors will be chosen president by the board of directors themselves. The directors are elected annually by the stockholders, but have power to fill vacancies occurring between regular elections. Two of the directors were interviewed and they stated that the question of a president was still in doubt. None of the directors seem to want it and a new man may be chosen director and made president. In the mean while the business of the bank will go on without interruption.

Tribute of Respect.

To Brother A. A. Fuqua who died at his residence in Lafayette Ky., July 13th, 1885, aged 35 years.

Like shadows we pass away, we lay down our weapons of warfare and quit the walks of man, our race run and our work ended.

In life with bowed heads and sorrowful hearts the measured beat of the funeral march we follow to the last resting place, all that remains of our departed brethren.

So brethren, we have been called upon to lay away the remains of our brother, A. A. Fuqua, an active member of this Lodge of F. and A. Masons, for eleven years, having been initiated the 19th day of Sept. 1874, passed to fellow craft degree the 24 day of Oct. 1874, and raised to the sublime degree of Master Mason the 25th day of Nov. 1874.

During his life he filled the office of Junior Warden and Senior Warden and was a good and faithful craftsman and master workman. But alas! he is gone, having finished his course, he quitted the Lodge below and joined the ranks of the redeemed Master Masons and to do homage to the Great Supreme Worshipful Master, and to join in the happy chorus of the blood-washed throng who forever and ever sing poems of praise to Him who doeth all things well.

Therefore we bewail our loss and rejoice in his gain; we wear the badge of mourning and bear in our hearts the grief and sorrow of those who are left weeping on the shore to which he can return no more.

We tender our sympathies to the widow and child, to the parents, brothers and sisters of the deceased; "commend his spirit to God and cherish his memory here." We spread this memorial upon the records of the Lodge, and through the Secretary furnish a copy to the widow. We can do no more than call upon Thee O God, Supreme Worshipful Master of our Order, to send blessings full and free, upon the bereaved companion of our departed brother. "So mote it be.

THE 21st ANNUAL MEETING OF THE Christian County Agricultural AND Mechanical ASSOCIATION

WILL BE HELD ON THEIR GROUNDS, NEAR THE

City of Hopkinsville,

—ON THE—

1, 2 and 3 days

—OF—

OCTOBER, '85.

The Premium Lists are now ready for circulation, and all desiring to contend for premiums will please call at the office of Secretary or on the President or Directors, and obtain them for free distribution among their friends.

The directory in giving their personal time and attention to this

have a right to expect and do expect the co-operation of all the citizens of Christian, whether stock-holders or not in their efforts to build up and sustain this institution which has so greatly contributed to foster a spirit of rivalry among our farmers and stock raisers, and has elevated the standard of Agricultural and Mechanical pursuits.

THE CHRISTIAN COUNTY A. & M. A., now in its 21st year, since its re-organization, points with pride to the fact that while other like societies have failed and been abandoned, she has kept the even tenor of her way, and has never faltered or refused to pay all the premiums awarded. This she has been able to do, because the people have turned out and have made our meetings the day for an Annual Re-union of families and friends, but if the people fail to patronize us then we cannot pay, as we must rely on our gate receipts to meet the demands upon us.

THERE WILL BE AWARDED IN THE SPEED RINGS THE SUM OF

\$1000 IN CASH.

All runs will be best 3 in 5, except such as in 1/2 mile heats.

—THERE WILL BE A—

Fine Band of Music

in the Amphitheatre to perform during the three days of the meeting, and refreshments of all kinds as usual will be on the grounds.

The entire premium list this year will be paid by the Treasurer in

CASH!

We hope we will not appeal in vain to the people of the county for their countenance and support. The President and Directors have given their time and attention to this work without fee or reward, the office of President or director is not a desirable one, and they think they may therefore appeal to the whole community, both city and county to give their hearty aid and help to make this the grandest meeting and most enjoyable occasion we have had for 21 years.

Very Respectfully,
C. F. JARRETT, Pres.

DR. B. S. WOOD,
GEO. W. MEANS,
C. D. BELL,
DR. J. C. WHITLOCK,
H. H. ABERNATHY,
THOS. L. GRAHAM,

Directors.
